

## ACUR@ANU Undergraduate Research Conference

### *Student Presentation Criteria for Oral, Group Oral and Poster Presentations*

- **Opening hook and background context** – the speaker grabbed the audience's attention/interests and provided context or relevant background necessary to understand the importance of the research topic.
- **What?** – the speaker provided a clear statement of the research question or field of investigation.
- **How?** – the speaker provided a clear statement of how they went about carrying out their research.
- **Delivery** – the terminology and content of the presentation can be understood by a general university audience.

Tone is academic and the presentation was delivered within the time limit. If the speaker uses their camera, their body language is appropriate and engaging.

- **Slideshow/poster** – the speaker used professionally created slides/poster that supports the message. The slides/poster are easy to read in an online format.
